COP30 BRASIL

AQOCI calls on States to...

#AQOCIBelem2025

Promote women's rights and leadership by...

- Adopting a new transformative and ambitious Gender Action Plan
- Defending the inclusion of women in all their diversity, human rights, and intersectionality throughout all negotiation tracks

Make COP30 the COP of just transition implementation by...

- Establishing a Belém Action Mechanism (BAM) for a just transition
- Imposing substantial limits on the participation of lobbyists who hinder initiatives aimed at achieving the goals of the Paris Agreement

Provide climate financing that meets the needs by...

- Tripling bilateral climate financing to reach $15.9 billion for the period 2026/27 to 2030/31, five crucial years to maximize climate action worldwide
- Prioritizing distribution channels that will reach vulnerable populations
- Ensuring the sustainability of the Quebec International Climate Cooperation Program (PCCI)

Reform global environmental governance to ensure climate justice by...

- Moving from consensus adoption to majority vote adoption
- Guaranteeing equitable, predictable, and meaningful access to COP processes for Indigenous peoples, civil society groups (especially those from the Global South), youth, women, and persons with disabilities

Strengthen climate-biodiversity interconnections to protect the environment by...

- Recognizing the importance of biodiversity and mobilizing financial resources for its protection to achieve climate objectives
- Promoting and supporting the establishment of a permanent joint subsidiary body between the CBD and the UNFCCC
- Establishing a governmental coordination platform to align ministerial priorities and offer a coherent governmental response

Recognize the key role of Indigenous peoples and territories in climate solutions by...

- Recognizing and integrating Indigenous knowledge systems in the fight against climate change
- Guaranteeing the protection of Indigenous territories and declaring them as exclusion zones for extractive activities
- Establishing specific indicators in the Global Adaptation Goal that reflect the global protection of Indigenous territories and the recognition of their own governance systems

ASKS IN RED ARE SPECIFICALLY ADDRESSED TO:

- **THE GOVERNMENT OF CANADA**
- **THE GOVERNMENT OF QUEBEC**

Break the vicious cycle of debt, climate crisis, and extractivism by...

- Supporting the implementation of mechanisms allowing for the cancellation, moratorium, or restructuring of Global South countries' debt
- Committing to provide new, additional financing that does not generate debt, for adaptation
- Increasing grants to at least 60% of climate change financing

Promote meaningful youth involvement in local and international climate action by...

- Supporting youth participation at COPs
- Implementing the principle of intergenerational equity through concrete mechanisms
- Creating a permanent Environmental Youth Advisory Committee at the National Assembly, a committee that must be independent, representative, and adequately funded

To learn more about our demands

Promote food sovereignty and agroecology by...

- Recognizing their importance in the fight against climate change

End the expansion and extraction of fossil fuels by...

- Strengthening the global commitment to phase out fossil fuels and supporting the implementation of a just and equitable transition to renewable energy

Ensure increased consideration and participation of persons with disabilities in climate decisions and action by...

- Integrating specific references and measures concerning persons with disabilities in climate policies
- Supporting the creation of an official constituency for persons with disabilities
- Developing calls for proposals that include disability considerations and require leadership from persons with disabilities in international climate financing

AQOCI
Association québécoise des organismes de coopération internationale

aqoci.qc.ca

A non-profit organization, the **Quebec Association of International Cooperation Organizations (AQOCI)** brings together more than 70 organizations working abroad and in Quebec, Canada, for sustainable, viable, and human development. AQOCI is an active member of Quebec civil society and provides leadership to Quebec and Canadian political authorities in matters of international cooperation and solidarity.
